What?

- Inspections
 - Pre-Start Inspections, Safety Inspections
- Services
- Audits
- · Load Sheets, Time Sheets, etc.

Why?

Compliance

Record of activity/Audit Trail

Consistency

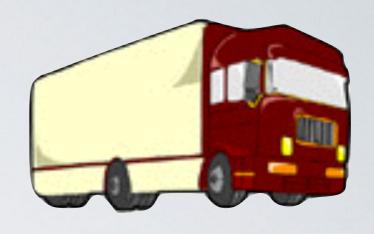

Digital Data Capture Technology replaces any paper based inspection, audit or checklist in your organisation with an easy to use app to significantly reduce costs and unlock information buried in paper forms.

Print

Delivery

Completion

Collection

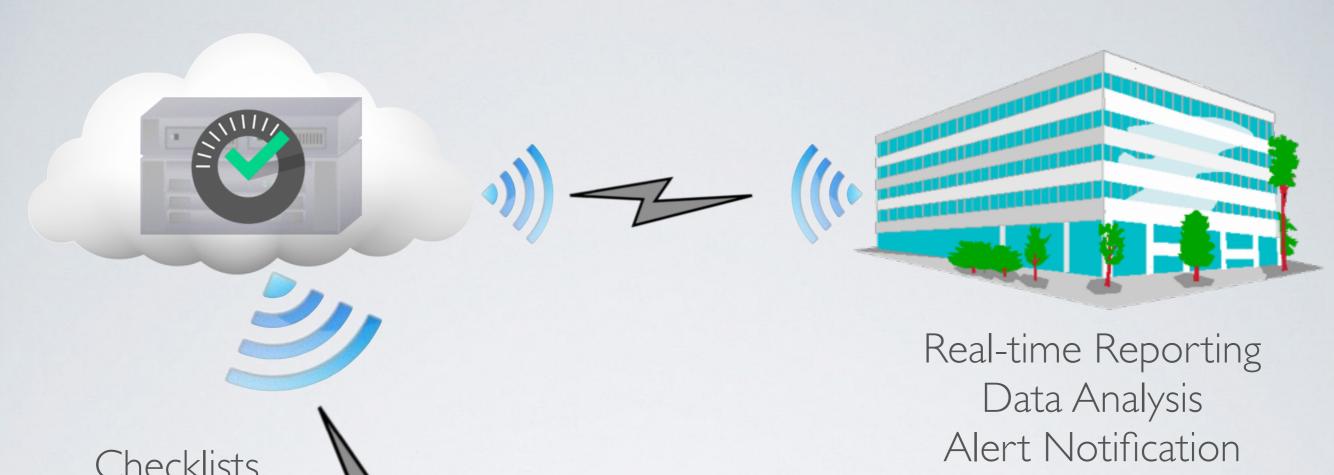

Data Entry

Archiving

\$10-\$70 per page

Checklists submitted automatically & wirelessly

Demo

Reduce Data Entry

Increase Compliance

Paperless

Reduce Mistakes

Affordable

Modern easy to use Data Capture

Auditable

Management Information

Reduce Data Entry

- Instant capture of information
- Interpretation and entry of hand written forms reduced
- Reduced chance of error
- Increase administrative efficiency

Speed of information

- · Data travels straight from user to system
- Transfer of paperwork takes days
- Electronic transfer takes seconds
- Real time information
- · Data being collected has more relevance

Compliance

- Improved quality of data
- Enhanced ability to ensure procedures are being followed
- Greater capacity to track data and enforce policies
- Better visibility to supervisors

Consistency

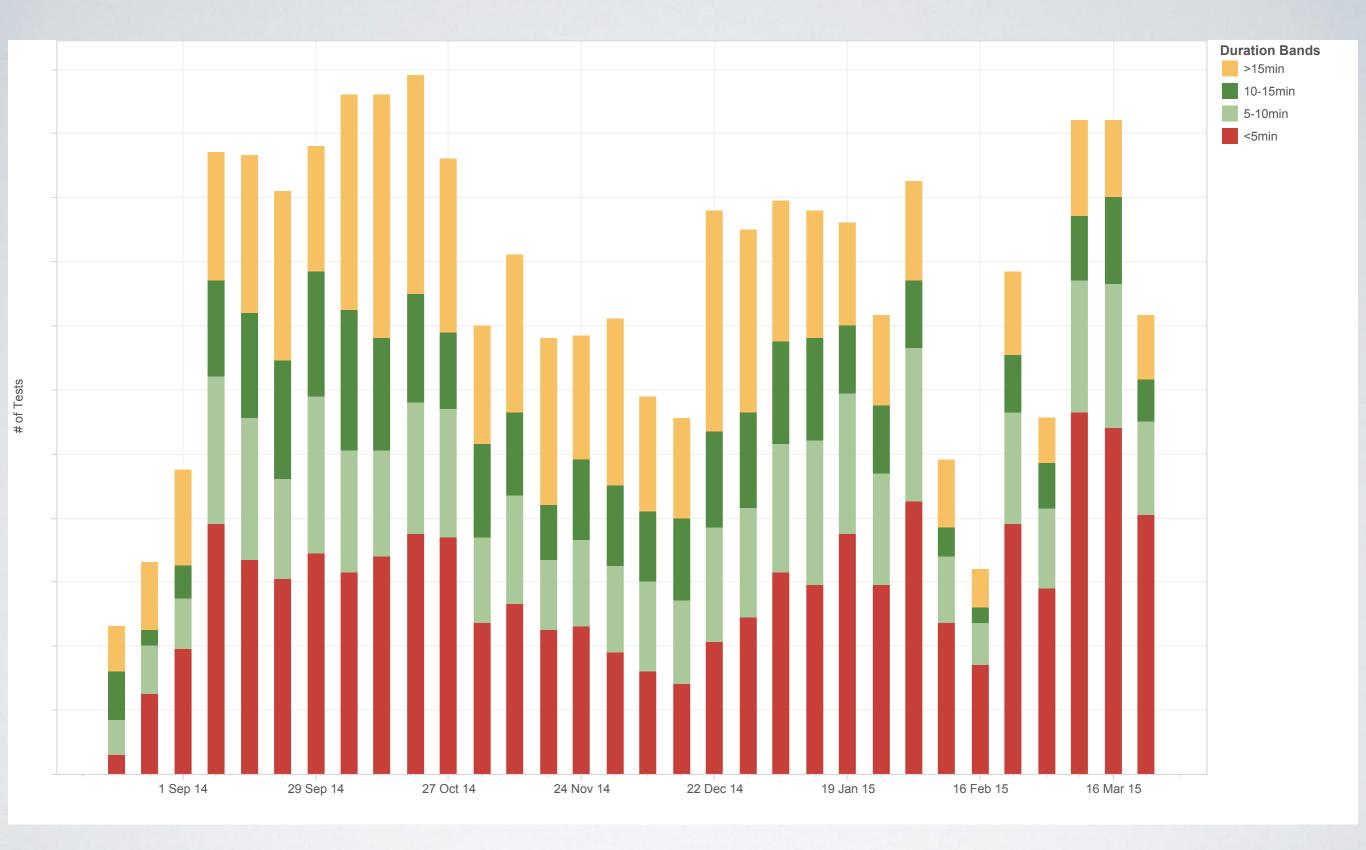

- Standardising order of inspections
- Improve quality of inspections
- Enhanced safety through standardisation
- Greater efficiency of servicing by improving process flow

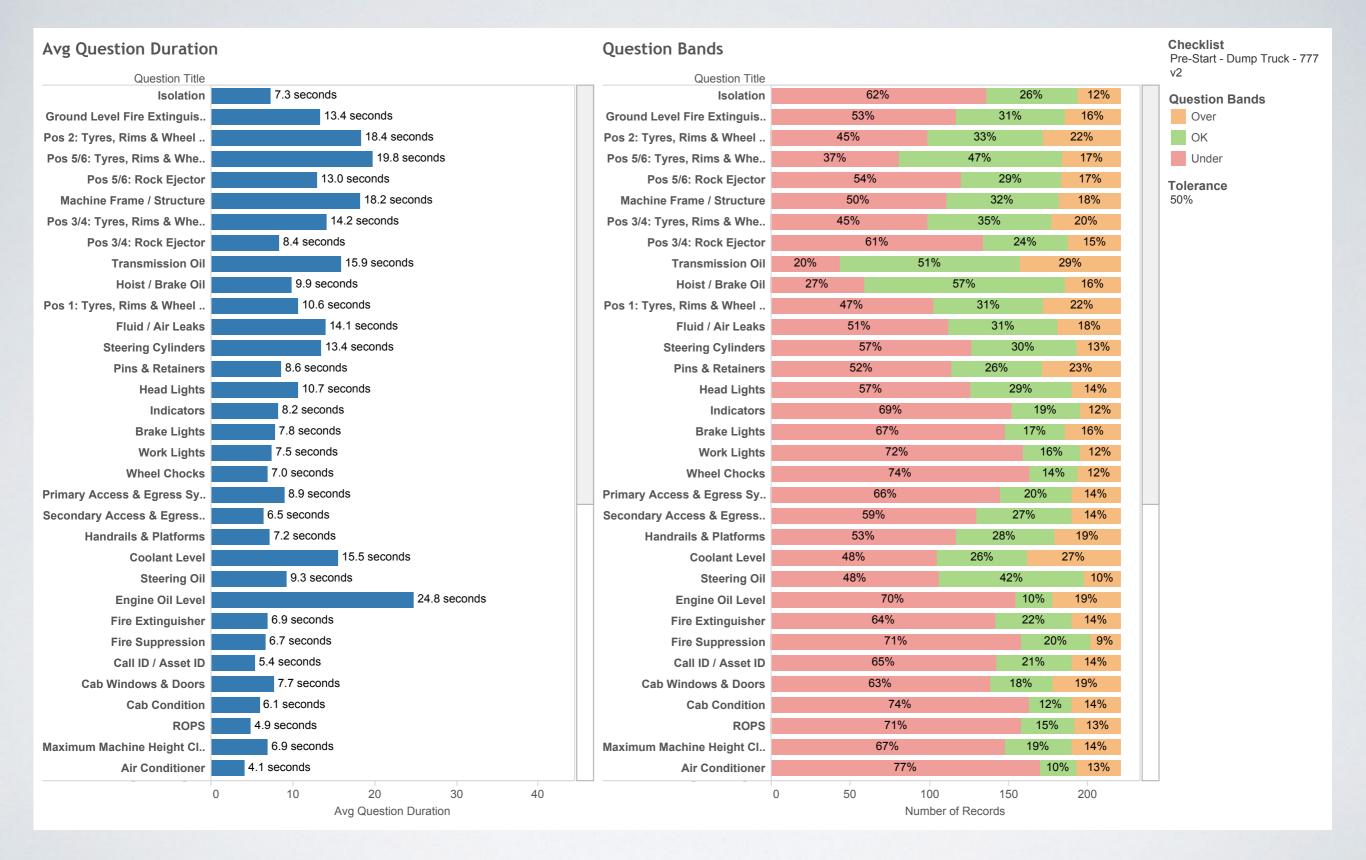

Data Analysis & Reporting

- Ability to analyse and report on data trends that would've previously been inefficient to track
 - e.g. Duration, Time of Day, Frequency, Common Recurring Faults, Location, etc.
- Identify training opportunities

Demo

Compliance

Assurance checklists are completed timely & accurately

Consistency

· Doing the right thing, the right way, all the time

Cost

Reduce cost of managing paper by up to 94%
