

The Chartered Institute of Logistics and Transport (CILT) Southern

## Invitation

# Transforming your Supply Chain capabilities with smart DC Design & Automation

Thursday 8<sup>th</sup> July 2021 – commencing 3.00pm

Sorted Logistics, 431 Waterloo Road, Islington, Christchurch 8042

**This is an exciting opportunity to learn from industry experts on DC design and automation.**

Come hear from.....

Caleb Nicolson, General Manager in New Zealand at TMX, former Chief Supply Chain Officer at Kathmandu leads the TMX team in New Zealand with first hand experience in designing and delivering large scale distribution and automated facilities.

We also have two of our leading Australian based DC and automation consultants in New Zealand;

Nick de Klerk, Senior Consultant in DC Design and Automation. Having worked as a principal engineer, solution designer and DC design manager, Nick has been responsible for both the design and deployment of many automation systems across Australia and Asia.

Matthew Unali, Supply Chain Consultant focusing on DC design, warehouse optimisation and automation. Matthew has worked on multiple supply chain transformation projects across Australia, focusing on large scale warehouse automation and micro-fulfilment solutions.

Our team will share industry trends, interesting solutions / partners, case studies and talk to the rapid acceleration in DC and Automation investment happening today in our closest neighbour Australia.

Commencing from 3pm, networking and coffee, presentation to start from 3.30pm, event will conclude around 5pm

CILT Members, colleagues and guests are all welcome. Please RSVP via this [Eventbrite link](#) no later than 1 July

**TMX is Asia-Pacific's leading end-to-end business transformation consultancy, creating digital and supply chain solutions for businesses in a fast-changing world.**
